The 'poison squad' and the advent of food and drug ... Members of the "Poison Squad" dine at the "hygienic table" located in the former Bureau of Chemistry building in Washington, D.C. Experiments conducted there a century ago by Harvey W. Wiley, M.D., were designed to test the safety of food preservatives. Keeping it Fresh: Preservatives and The Poison Squad ... Wiley's "poison squad" was made up of young, healthy male government workers, who consumed capsules of borax, formaldehyde, and other preservatives alongside their daily meals. The trials' shocking results led to the 1906 Pure Food and Drug Act and eventually to the creation of the U.S. Food & Drug Administration (FDA), transforming what the nation eats in the process. Amazon.com: The Poison Squad: One Chemist's Single-Minded ... The Poison Squad of the title was a panel of volunteers who ingested known food additives such as borax and formaldehyde, in increasing amounts to determine how much could be safely consumed. The program, started in 1902, was conducted by Dr. Harvey Wiley, a chemist for the U.S. Department of Agriculture, who was running a one-man crusade to enforce food safety in American products.

The Poison Squad by Deborah Blum - Penguin Random House About The Poison Squad. From Pulitzer Prize winner and New York Times-bestselling author Deborah Blum, the dramatic true story of how food was made safe in the United States and the heroes, led by the inimitable Dr. Harvey Washington Wiley, who fought for change By the end of nineteenth century, food was dangerous. Lethal, even. The Poison Squad Ate Questionable Foods To Keep People Safe The poison squad was a group of undergraduate students established in 1902 who voluntarily ate foods with untested preservatives and chemicals to make some quick cash. They ate anything, and they were proud of it. The Poison Squad | Books, Et Al. - blogs.sciencemag.org The Poison Squad: One Chemist's Single-Minded Crusade for Food Safety at the Turn of the Twentieth Century.
